**Saturday**  
**April 22nd, 2023**  
**8:00am-3:30pm**

**SPEAKER :**  
**E. Todd Scheyer DDS MS**

**Renaissance Downtown**  
**Columbus**  
50 N 3rd St.  
Columbus, OH 43215  
(614) 228-5050

6 CE credits  
OAP membership and  
meeting fee: \$300  
Retired: \$75

Diplomate of The American Board of Periodontology

Dr. Scheyer attended dental school at The Medical College of Virginia at Virginia Commonwealth University from which he graduated Magna Cum Laude earning clinical and research awards. Dr Scheyer received his Certificate in Periodontics, Conscious Sedation and a Masters Degree from The University of Texas Health Science Center at San Antonio and School of Biomedical Science, clinically focusing on Perio-Prosthetic Regeneration. Dr. Scheyer was awarded the John F. Prichard Award for graduate research in February 2001. Dr. Scheyer was awarded both the AAP "Clinical Research Award" and the "Robinson Regeneration Award" in 2010 and 2017. He is a Diplomate of the American Board of Periodontology. Dr. Scheyer has and currently serves as an officer and committee member for many outstanding dental organizations. He has served as Senior District 5 Trustee for the American Academy of Periodontology and is Past President of the Southwest Society of Periodontists, the Texas Society of Periodontists and the Houston Society of Periodontists. He is in private practice limited to Periodontics and Implant Reconstructive Dentistry in Houston, Texas. Dr. Scheyer is a Clinical Assistant Instructor at the University of Texas Dental Branch-Houston and Guest Lecturer for the University of Texas Health Science Center at San Antonio. He is now actively involved with research (including AI, digital dentistry, tissue engineering and interdisciplinary therapy with an airway focus), advocacy for safe dentistry and is a leader in his specialty, as well as, in the broader field of dentistry.

Periodontics in the Digital Era: Following my Journey Through Airway Awareness and Digital Workflows.

Objectives:

1. Understand patient digitization and the IDT pathway
2. Appreciate "Story telling" and "emotional dentistry"
3. Realize your opportunity to modernize your workflow for much more than implant placement and airway focused facially generated treatment planning.
4. Learn about a doctor lead, patient focused, service organization for the ultimate "Mayo Clinic Model of Dentistry".

"Hard and Soft Tissue Regeneration – 2023: Innovative and Evidence-Based Approach towards Oral Tissue Regeneration"

Objectives:

1. Increase awareness of the evidence support for oral hard and soft tissue regeneration.
2. Understand the science and mechanism of tissue regeneration.
3. Help yourself and your patients with evidence based decision for biomaterials.
4. View the future through current clinical trials for new regenerative therapies.
5. Strengthen your confidence in saving teeth with innovative regenerative strategies.
